Recognized leaders in the industry

AZEK Exteriors® Siding, Trim, Moulding, and TimberTech Cladding beautifully wrap a home's exterior from roofline to ground contact.
Made with PVC, our products are incredibly durable, low maintenance, resistant to moisture, rot, insects & mold — and backed by a Lifetime Limited Warranty.

Architizer A+PRODUCTS SPECIAL MENTION 2025

GOLDEN HAMMER AWARD

RESISTS MOISTURE & ROT

AZEK Trim and Siding does not deteriorate, swell, or splinter due to moisture like wood.

INSTALLS EASILY & EFFICIENTLY

Smart solutions, familiar tools, intuitive techniques, and field support boost your productivity.

ENDURES BEAUTIFULLY

With the versatility of wood but none of its downsides, your projects will look great and last for decades.

Advanced materials for lasting beauty

Our premium products are made from PVC using advanced materials science and are crafted for installation ease. With moisture resistance and durability far superior to treated wood and composite wood, AZEK ensures that years from now your installation will look as beautiful as on day one.

MOISTURE RESISTANT

AZEK boards are water resistant inside and out, preventing both moisture absorption and damage from exposure.

UNPRECEDENTED DURABILITY

Our flexible and durable engineered polymer prevents jobsite breakage and delivers long-lasting protection.

ROT RESISTANT

No splitting, splintering, and rotting caused by exposure to the elements. Wood rots, AZEK does not.

UNIFORMITY

No knots, no finger joints, no dimensional inconsistencies. Let your designs vary, not your boards.

Moisture Resistant

Rot Resistant

Fire Resistant*

Insect Resistant

Weather Resistant

Lightweight

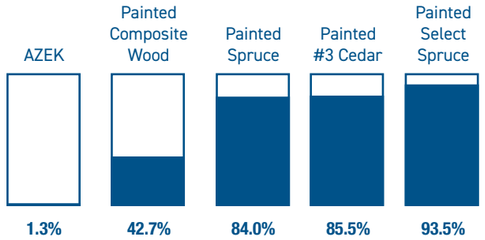

*See Page 11 for details.

Moisture is a home's worst enemy

Wood and other porous materials naturally absorb water even when painted. This leads to mold growth, rot, and material expansion. Unlike AZEK PVC, porous trim material expands — the resulting movement can lead to unsightly damage and leave extended gaps in the exterior wrap, making other parts of the home susceptible to water infiltration.

AZEK PVC REPELS WATER THAT WOOD ABSORBS

We exposed siding materials to moisture for 100 days, and AZEK PVC absorbed virtually no water, while other materials absorbed a high proportion of their weight.

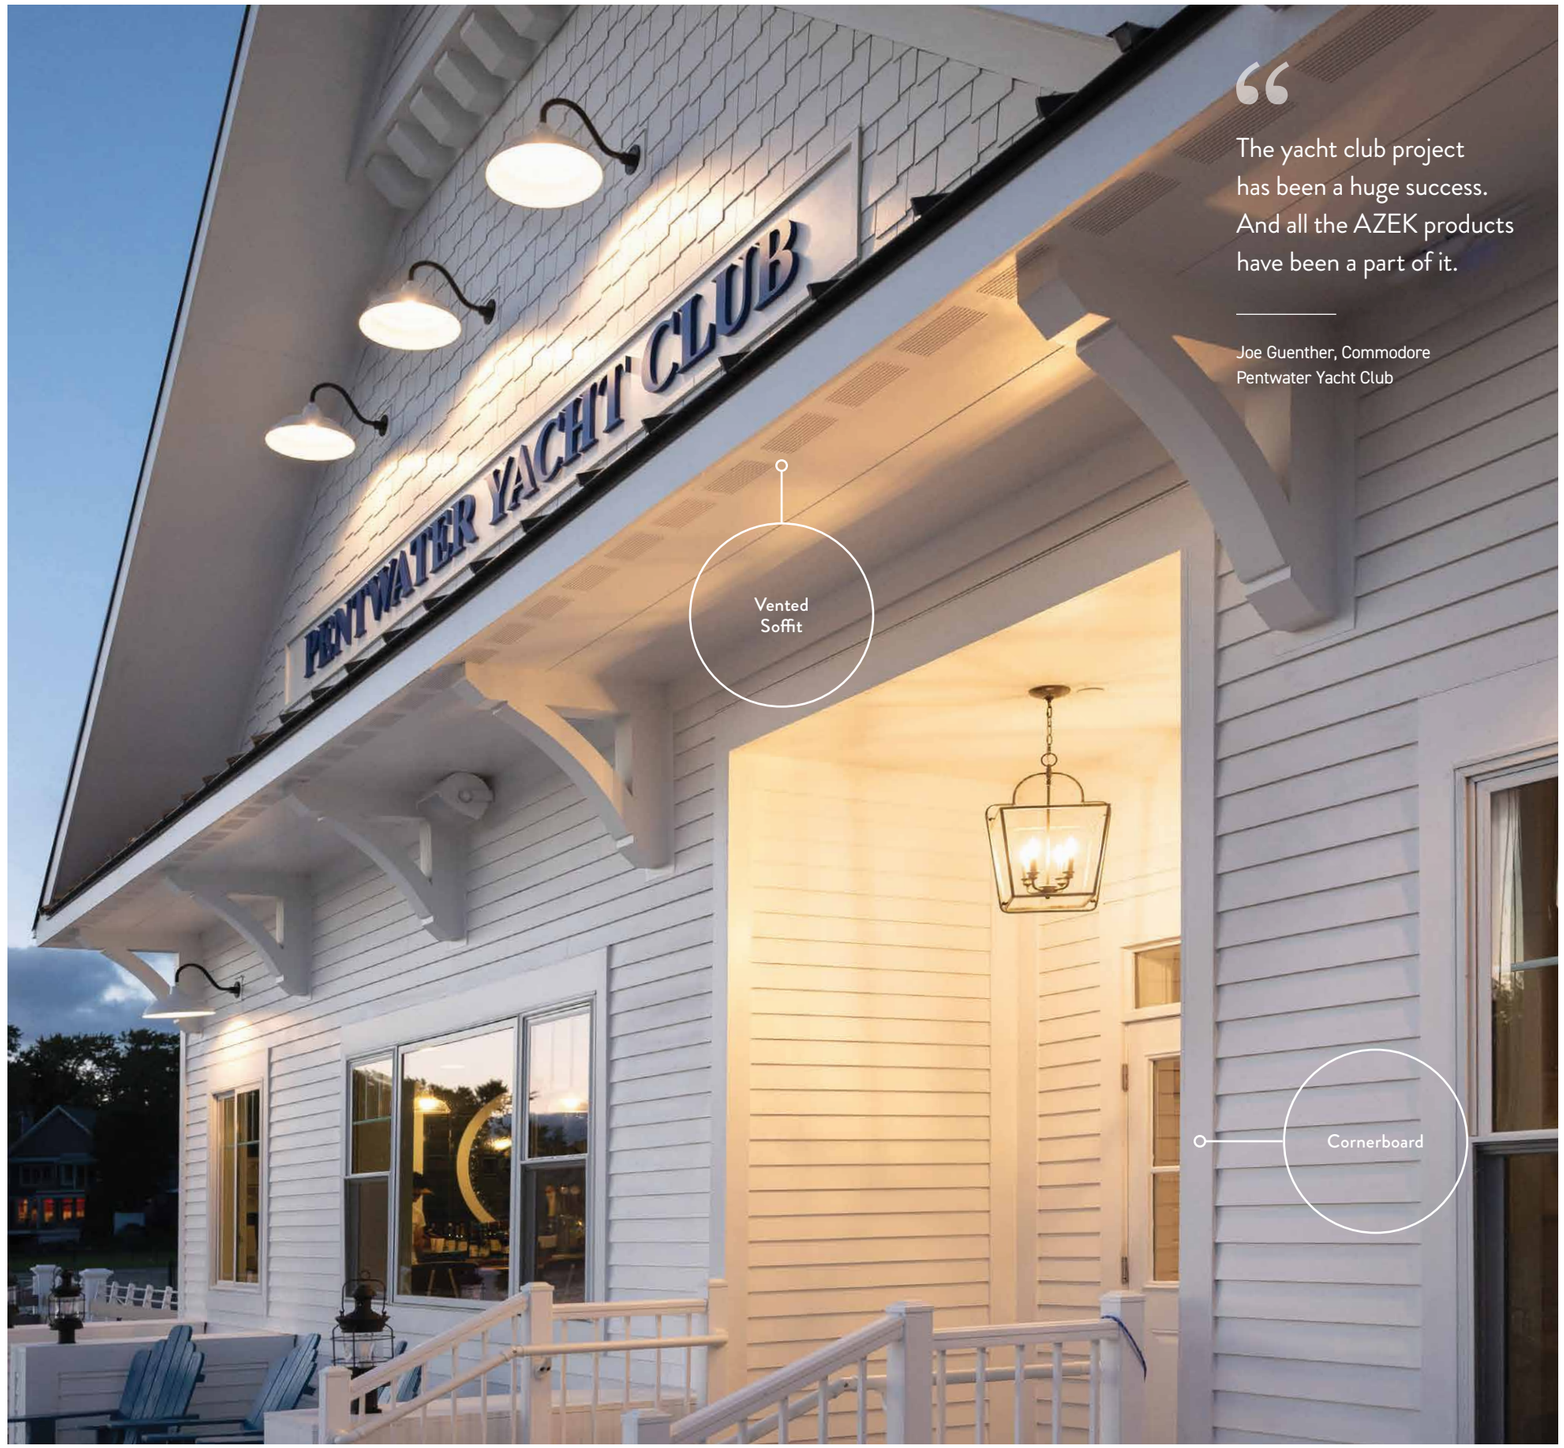

Results based on internal testing performed by AZEK where materials were exposed to water and weighed to determine moisture absorption.

Our trim outperforms wood

AZEK® Trim is a durable, long-lasting building material made of 100% PVC polymer, far more resistant to the elements than wood, with no paint or sealants needed.

"The yacht club project has been a huge success. And all the AZEK products have been a part of it."

Joe Guenther, Commodore
Pentwater Yacht Club

INSTALLATION EASE

Engineered to install easily & quickly

We work hard to make the installer's job easier, because we know you're working hard to make the homeowner happy. Our solutions mean less on-site fabrication, smoother transitions between material types, less waste, and boards that are extremely workable. The bottom line: fewer callbacks.

EASY TO HANDLE

From unloading the truck to moving at the worksite, our manageable light weight saves time and trips. Spend more time working, not carrying.

FLEXIBLE & UNIFORM

AZEK bends where others break — no knots, joints, or flaws that make you buy extra materials.

SAME TOOLS

Regular woodworking tools — including bits and saw blades — work fine with AZEK PVC.

GROUND CONTACT APPROVED

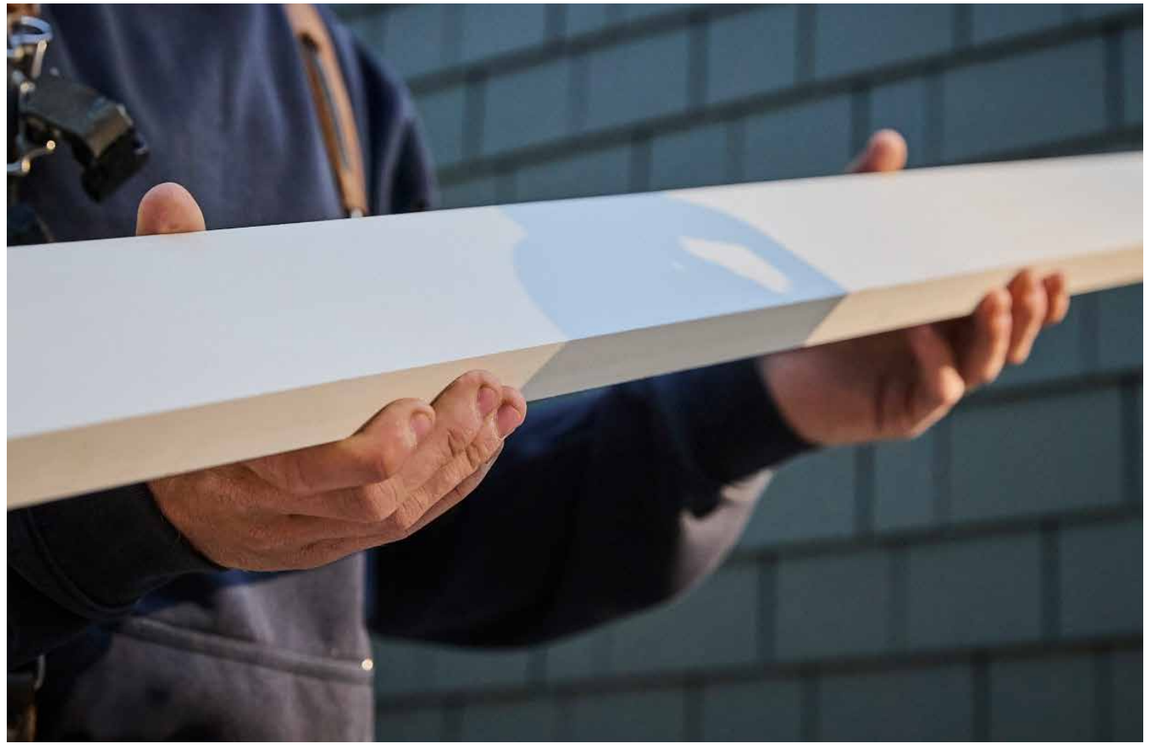

Water has no effect on AZEK's beauty, performance, or durability. Install it at ground level, by sprinklers, or where the snow piles up without worries.

TIME-SAVING SOLUTIONS

Soffit and fascia, starter boards, column wraps, cornerboards, and more keep your project moving.

NO GRAIN, NO KNOTS, LESS SPLITTING

Dense AZEK boards won't split even when nailing near ends.

"We believe every architect should be spec-ing AZEK lap siding to their homeowners."

Joe Hydro,
Creo Construction

Solution profiles help you work smarter

AZEK offers more trim, siding, and solution-based profiles than any other brand on the market. Our engineered products deliver the quality your exterior project deserves.

FINISHING OPTIONS

Finish the project your way

However you want your siding and trim finished, AZEK Exteriors gives you many choices. Classic White stays crisp and white and never needs paint. Factory-primed with PaintPro® Technology lets you choose from hundreds of colors for on-the-wall painting — or get it as Captivate® Prefinished Siding and Trim.

AZEK Board & Batten Siding
in Captivate® Acadian Coastline

SEE IMPORTANT PAINTING GUIDELINES

READY-TO-INSTALL WHITE
CRISP MATTE FINISH

Classic White

AZEK® Classic White is the trim that started it all. For over 2 5 years, our trim has avoided rot and the need for repainting every few years. Our legacy of moisture protection, curb appeal, and low maintenance is still going strong today.

- No painting required; may be painted if desired*
- Non-yellowing formulation
- Widest profile selection: mouldings, columns, and more
- Sheet and AZEK-to-Mill offer limitless fabrication options

PRIMED SUBSTRATE
CUSTOM COLORS AVAILABLE

PaintPro® Technology

Ready-to-paint AZEK Trim and Siding primed with PaintPro® Technology promotes improved paint coverage that adheres stronger and lasts longer with no special prep. Plus, there's no need for frequent maintenance and expensive repainting.

- Engineered to be painted*
- Faster dry times
- Long-lasting paint adhesion
- Custom colors & special order available

PREFINISHED COLORS
16 STANDARD, MULTIPLE CUSTOM COLORS

Captivate® Prefinished

Get any PaintPro profile prefinished for the ultimate in convenience. Our partners factory-paint your order using top-quality paints that follow all AZEK guidelines. Your job moves faster and your finish is better than any field-painted project.

- **PVC Substrate** Virtually impervious to rot and water damage
- **PaintPro® Technology** No priming needed; paint adheres stronger than with untreated PVC
- **Premium Paint** The right paint, pigments, and formulas are factory applied for a high performance finish

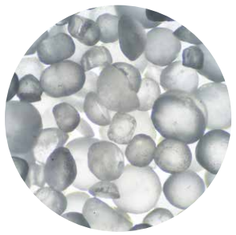

*For best performance of both paint and substrate, follow AZEK Painting Guidelines, available at AZEKExteriors.com

PaintPro® Technology is the best substrate for paint

AZEK® Trim and Siding with PaintPro Technology helps create a superior bond with paint for improved coverage without the need for any special prep. PaintPro Technology helps ensure longer-lasting curb appeal. With the revolutionary power of PaintPro-enhanced exterior trim and siding, there's no need for frequent maintenance and expensive repainting.

- **Ready to paint** No sanding. No priming. Faster dry times.
- **Superior adhesion** Paint creates a strong bond to reduce chipping, cracking, and other paint defects over time.
- **Low maintenance** Enjoy a painted finish that endures beautifully without the need for constant repainting.

PVC SUBSTRATE

Wood's worst enemy is moisture. It leads to rot and warping, so wood needs frequent painting for protection. Lightweight, easy-to-work-with PVC is impervious to water, fire resistant, and always consistent — no knots, cupping, or irregularaties — plus it carries a Lifetime Limited Warranty.

PAINTPRO® TECHNOLOGY

This proprietary factory treatment, exclusively from AZEK, is like priming, but much more. Captivate® starts with AZEK products enhanced with PaintPro® Technology that helps paints adhere stronger and last longer than on ordinary, untreated PVC.

CAPTIVATE® PREFINISHING

Our prefinishers use Duracolor™ paints from PPG, warranted for 15 years. Specially formulated for PVC using solar-reflective pigments, it's applied at the precise thickness for durability and performance. Indoor curing enhances consistency and keeps your project on schedule.

Choose Captivate® for a flawless factory finish

With Captivate Prefinishing, you get a finish that can't be duplicated in the field. It's as close to perfect as a paint job can be: smooth, strongly adherent, and made to last without chipping, swelling, and cracking. There's no variation in color, no waiting for clear weather, and your project can be finished days earlier.

Colors are represented but limited by printing technology — request an actual color sample from your local AZEK rep.

Building for tomorrow, responsibly

Our mission goes beyond outdoor living — it's about shaping a sustainable future. By advancing recycling, protecting forests, and lowering carbon emissions, we're making a positive impact today, so generations to come can enjoy the spaces we create together.

HERE'S HOW WE'RE MAKING AN IMPACT:

- Creating long-lasting materials made with high recycle content
- Protecting natural resources
- Advancing circularity through recycling and manufacturing processes

AZEK FULL-CIRCLE PVC RECYCLING

WE'RE THE #1 VERTICALLY INTEGRATED PVC RECYCLER IN THE US

The FULL-CIRCLE Recycling® program is at the heart of our approach. Recycling bins are capturing scrap and waste materials at lumberyards, OEMs, and even at construction sites. When a house is resided, almost a ton of old vinyl siding may be removed, reprocessed, and transformed. The FULL-CIRCLE program will take all of that scrap — from anyone anywhere — and remove it from the jobsite, free of charge.

GET INVOLVED FOR ZERO COST

- Find recycle bins near you
- Get set up with a dealer bin
- Inquire about jobsite bins

OUR GOAL IS TO USE 1 BILLION POUNDS OF RECYCLED MATERIAL ANNUALLY

Each year, we take hundreds of millions of pounds of what could otherwise be landfill- and ocean-bound wood and plastic waste, scrap and trash, like grocery bags, milk jugs, old vinyl siding, PVC pipe, and construction waste and turn it into AZEK Exteriors and TimberTech products.

DIVERTING

All printed samples are carefully reproduced to be as close to the actual sample as possible. Actual colors may vary due to printing limitations.

Streamlined installation

Lightweight material carries easily and installs quickly. Drop and lock siding panels hold the next course in place, maintaining the set level and a perfect floating installation. Homeowners will love the look of AZEK Lap Siding, and contractors will love working with it.

4 1/2" Lap Siding 7 1/2" Lap Siding

ENGINEERED FOR CLEAN LINES AND LASTING BEAUTY

THE PROBLEM

Other trim materials mean onsite fabrication, messy caulk, and regular repainting.

THE SOLUTION

Trim specially engineered for Lap Siding speeds installation, eliminates most maintenance, and provides a precise fit.

FEWER JOINTS

16-foot panel lengths mean fewer butt joints for a streamlined install and a better final appearance.

TIGHTER SEAMS

The nail hem bracket system ensures tight butt joints that are almost invisible.

NO CUSTOM FABRICATING

The trim pieces are specifically fabricated with rabbeted slots in the precise dimension.

EASY DROP AND LOCK

Each course locks onto the one below for easy installation, precise parallel rows, and resistance to wind uplift.

Long-lasting performance

Durable AZEK Lap Siding won't rot, has excellent wind resistance, repels water, resists dents, and needs almost no maintenance. Plus, it offers a transferrable Lifetime Limited Warranty. See full details at **AZEKexteriors.com/warranty**

Ultimate design flexibility

Board & Batten Siding

Traditionally, board and batten siding starts with wide vertical planks (boards), which are then joined together by thin vertical strips (battens) to cover the seams. Using AZEK® Sheet as the board and AZEK Batten strips, design options multiply. Choose narrow or wide battens, space them closely or wide apart; your design is no longer locked in to a specific size.

TIMBERTECH CLADDING

All wood's beauty, none of its maintenance

TimberTech® Advanced PVC Cladding delivers the full aesthetic experience of wood without the laborious, costly, and constant upkeep. Our proprietary polymer boards use technology and artistry to achieve a hyper-realistic wood look that lasts for decades. Plus, our cladding has an Ignition Resistant designation, Class A Flame Spread Rating, and WUI (Wildland Urban Interface) Compliance, so it's a smart choice in fire zones*. An inspiring variety of colors, dimensions, and profiles open a world of design possibilities, while industry-leading warranties offer peace of mind.

BOARDWALK®

Applicable for residential & commercial

TimberTech® Cladding is the only PVC cladding brand in the industry that offers tongue-and-groove (closed-joint) cladding and square-shouldered (open-joint) cladding. Approved for and warranted in commercial, residential, and multifamily projects, our cladding offers both extreme durability and ultra-low maintenance.

RESIDENTIAL WARRANTIES

TimberTech Advanced PVC Cladding is backed by an industry-leading Lifetime Limited Warranty and 50-Year Fade & Stain Limited Warranty.

COMMERCIAL WARRANTIES

Bring the enduring beauty of TimberTech Cladding to your commercial builds with the confidence guaranteed from durable, low-maintenance materials and industry-best performance.

FIRE RESISTANCE

The TimberTech Vintage Collection® and Landmark Collection® have an Ignition Resistant designation and Class A Flame Spread Rating, the best available. This means that in a fire, flames will spread slower across the material surface. These collections are also WUI Compliant for both open-joint and closed-joint installations.*

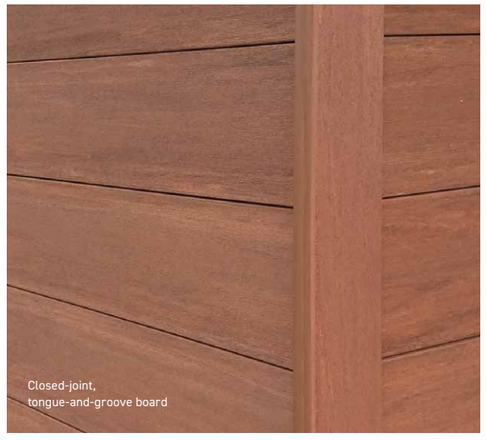

*All decking-as-cladding applications require a one-hour fire rated wall construction behind the cladding. Fire testing data available at spec.AZEK.com.

One material, two profiles

Closed-joint Cladding

With this board profile, tongue-and-groove boards interlock together with ease, creating a solid barrier with a neat, smoothly finished look without gaps.

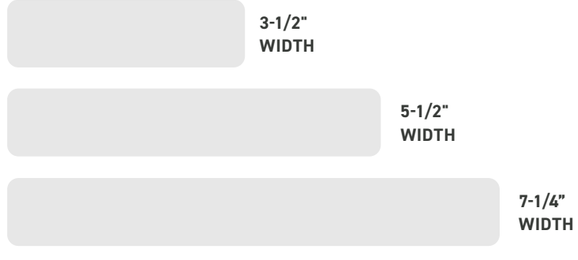

Tongue-and-groove board sizes:

Open-joint Cladding

The open space between the cladding elements create a strong, linear design pattern while also functionally providing ventilation for air circulation.

TRIM, SPECIALTY PROFILES & MOULDING

Beautiful, efficient & long-lasting trim

Trim beautifies a home, but its first job is protecting against water damage. AZEK® offers more trim sizes and solution-based moulding profiles than any other brand on the market. Using the insight of contractors, architects, and homeowners, we have been solving exterior problems for over 25 years.

Details make the difference

AZEK® Trim

Quality AZEK Trim protects against moisture infiltration and adds the final touch that takes an exterior from good to great. It comes in the sizes and dimensions pros want, with choices of smooth and woodgrain finish in Classic White or reversible smooth/woodgrain with PaintPro® Technology.

GET A QUICK, SEAMLESS & CLEAN INSTALLATION

⊗ THE PROBLEM

Multiple pieces require more time and labor. Caulk is required to combine two trim boards. Other materials are not approved for ground and masonry contact.

✓ THE SOLUTION

AZEK Cornerboard means no seams, no caulk, and no paint required. Lengths up to 20' make installation faster.

Skirt Boards

The perfect transition between grade and siding, our matte white skirt boards are approved for ground contact without worry or the need for additional flashing or starter strips. The one-piece version (also available with PaintPro®) in either smooth or woodgrain has an integral flange and angled top to help manage water. The universal version is smooth/woodgrain reversible and features a separate metal water management flange that fits into a routered groove.

Universal Skirt Board

Nominal	Actual		
5/4 x 6	1" x 5 ½"		W
5/4 x 8	1" x 7 ¼"		W
5/4 x 10	1" x 9 ¼"		W
5/4 x 12	1" x 11 ¼"		W

1 ½" nailing flange length & ¼" drip edge overhang

Integrated Drip Edge

AZEK® Integrated Drip Edge channels water away from window and door surrounds. The two-piece system includes a metal drip edge that fits into a groove routered in the trim board. The board itself is smooth/woodgrain reversible.

Nominal	Actual	18'
5/4 x 4	1" x 3 ½"	W
5/4 x 6	1" x 5 ½"	W

1 ¼" nailing flange length & ⅛" drip edge overhang

SAVE ON INSTALLATION TIME & COST

⊗ THE PROBLEM

Wood trim has failing paint, messy caulk, and is not approved for ground or masonry contact.

✓ THE SOLUTION

AZEK One-Piece Skirt Board is moisture resistant and approved for ground contact.

Product Finish Availability Smooth S Woodgrain W PaintPro P

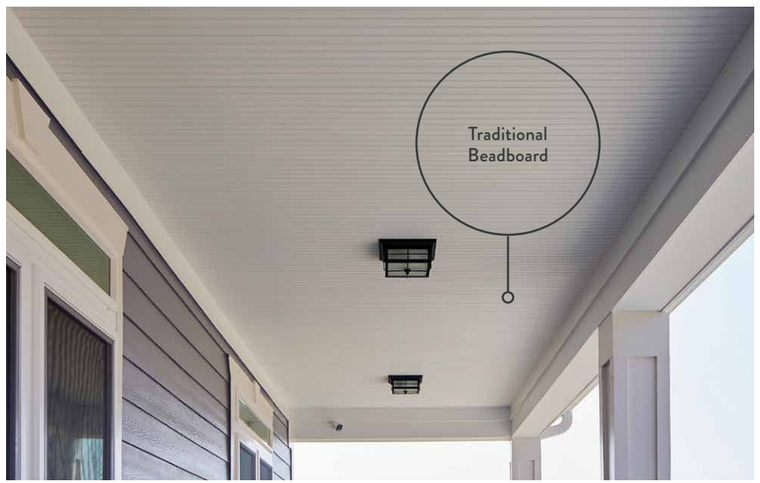

ENDLESS CEILING DESIGNS WITH THREE INSTALL OPTIONS

Elevate spaces with a perfect blend of timeless style and cutting-edge durability. Beadboards and Beaded Sheets offer beautiful coverage for ceilings under decks, porches, or gazebos. Like all AZEK® Trim and Moulding, beaded profiles are made from moisture-resistant, low-maintenance PVC and designed to complement exteriors. No paint needed, but may be painted per AZEK guidelines.

Beadboard (E & CB)

Edge and Center Bead comes as boards in two widths with a regular tongue-and-groove profile or as 4' x 8' sheets for covering large areas quickly. Once installed, the look is identical. Because they are face-nailed, they have excellent wind performance with UL 580 90 mph certification. Retains its crisp, white appearance with minimal upkeep.

Beadboard

Actual	18'
½" x 3 ½"	S
¾" x 3 ½"	S
¾" x 5 ½"	S

Add character to any wall or ceiling with the classic and cozy look of beadboard.

	8'

Beaded Sheets

Actual	
½" x 4'	S

Traditional Beadboard

The two key advantages to AZEK Traditional Beadboard are a nailing flange for hidden fastening and a reversible profile with one side dual-beaded and the other side smooth with V-groove edges. AZEK PVC makes these rot-proof boards moisture and insect resistant, plus they're flexible for curved applications.

Actual	18'
5/6" x 3 ½"	S
½" x 5 ½"*	S

V-Groove provides wider planks and a more formal aesthetic compared to beadboard on the reverse side.

*Features a nailing flange for easier installation.

Product Finish Availability Smooth S Woodgrain W PaintPro P

Shiplap & Nickel Gap

Bring the contemporary look of wider planks with shiplap or nickel gap. Both deliver similar finished looks, but the nickel gap and reversible WP4 allow for hidden fasteners. Each profile type is suitable for horizontal or vertical orientation.

	18'

Shiplap

Actual	
¾" x 5 ½"	S
¾" x 7 ¼"	S

Combine with overlapping "rabbeted" joints.

Nickel Gap/WP4 (Reversible)

Actual	
¾" x 5 ½"	S
¾" x 7 ¼"	S

Tongue-and-groove joints and reverse side offers V-groove aesthetic.

Outdoor-ready, finished wood look

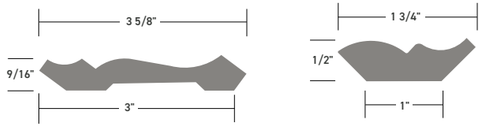

AZEK® Alpine Collection

AZEK® Alpine handles humidity and moisture effortlessly and is a perfect solution for ceilings, soffits, porches, gazebos, and more. Combining low-maintenance polymer materials with a final layer of realistic, warm woodgrain finishes, Alpine Collection WP4 and Beadboard profiles add a high-end, polished detail to exterior locations with the appearance of premium stained lumber.

Crown and Bed Moulding

Finish off projects with Alpine Crown Moulding and Bed Mould, available in 16' lengths in all six colors.

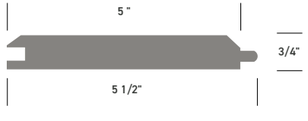

Trim Boards

Versatile Alpine Trim boards, available in 1" x 8" and 1" x 12" sizes, are laminated on 3+ sides in the six Alpine colors to match perfectly and minimize touch-ups.

WP4

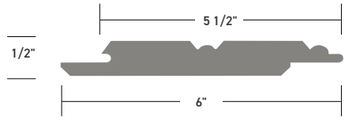

WP4 delivers the modern, wide-plank look to your project. The WP4 profile enables hidden fasteners. Available in 18' lengths.

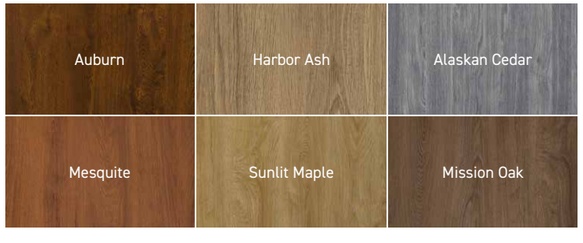

Beadboard

AZEK Alpine Beadboard provides a traditional, rustic farmhouse look with center bead. Consistent interlocking design means tight joints and easy installation. Available in 18' lengths.

COLOR-MATCH DAUBER

Cover exposed end cuts with an exact match for any of the six Alpine colors. Easy to use and re-use, it also conceals surface dings perfectly.

One-Piece Column Wrap

This easy-to-install column wrap is made from a single piece of PVC and quickly dresses up a structural wood post. Glue the snap-fit seams, attach to the post, and trim to finish the architectural look.

Nominal	Inside Dimension	Outside Dimension	8' 6"	10'
4 x 4	3 ¾" x 3 ¾"	4 ¾" x 4 ¾"	S	S
6 x 6	5 ¾" x 5 ¾"	6 ¾" x 6 ¾"	S	S
8 x 8	8 ½" x 8 ½"	9 ½" x 9 ½"	S	S

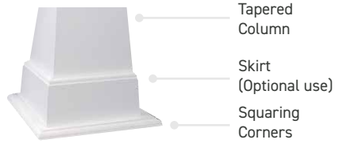

Installs quickly with four precut interlocking boards.

Tapered Column

AZEK® Tapered Column combines a craftsman aesthetic with a column wrap's ease of installation. Four precut panels feature a friction-fit miter lock joint for a secure fit and correct panel angle. Includes squaring corners and 3 1/2" decorative skirt pieces for the cap and base.

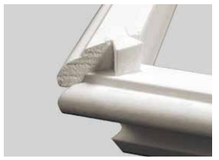

Actual	5'	6'
12" base / 8" cap	S	S
16" base / 12" cap	S	S

One-Piece Column Wrap Accessories

Take your column wraps from simple to sophisticated with durable PVC moulding kits, accent wraps, and more accessories.

Description	4"	6"	8"
TRIM KIT - BASE MLDG	S	S	S

J-Casing

AZEK® J-Casing offers a beautiful and seamless transition between siding and trim. Engineered to reduce labor and save costs by eliminating the need for field-applied paint and caulk.

	12'	16'	18'

J-Casing

Description	Actual			
1 x 4 J-Casing	1 ⅛" x 3 ½"		S	S
1 x 6 J-Casing	1 ⅛" x 5 ½"		S	

Brick Mould J-Casing

Description	Actual			
Brick Mould J-Casing	1 ¼" x 2"			S

GET FASTER INSTALLATIONS WITH NO PAINT OR CAULK

THE PROBLEM

Requires separate purchase and use of trimboard and J-Channel.

THE SOLUTION

AZEK® J-Casing has an integrated J-Channel and doesn't require paint for protection, reducing installation time and cost.

J-Channel Quick-Corner®

Quick Corner uses hidden fasteners so there's no face nailing or paint touch-up. Plus, its 3/4" channel works with multiple siding types.

	20'

J-Channel Quick-Corner® Outside Corner

Description	Actual	
4 x 4 J-Quick Corner	1" x 3 ½" x 3 ½"	S
6 x 6 J-Quick Corner	1" x 5 ½" x 5 ½"	S

J-Channel Quick -Corner® Inside Corner

Description	Actual	
3 x 3 J-Quick Corner	⅜" x 2 ½" x 2 ½"	S

TRIM OUT CORNERS QUICKLY, CLEANLY & SEAMLESSLY

THE PROBLEM

Caulked inside corners look messy and often are not watertight.

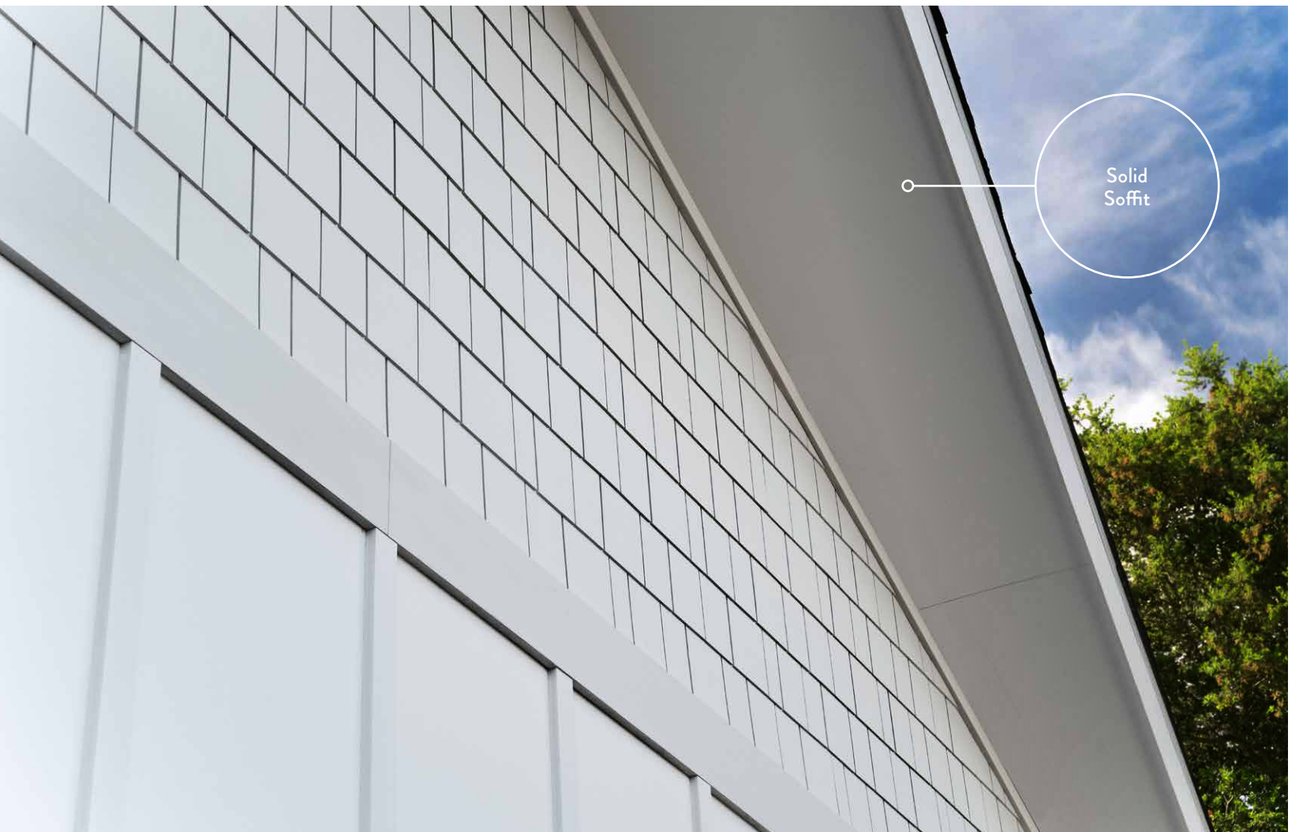

THE SOLUTION

J-Channel Inside Corner gives a clean, finished look, attaches with hidden fasteners, and works with most siding systems.

Product Finish Availability Smooth S Woodgrain W PaintPro P

Solid & Vented Soffit

Available in both solid and vented, AZEK® Soffit provides beautiful, durable finishing and vital ventilation for any home exterior. Designed with 10" of free air space per lineal foot to meet most building codes, its vents are cut at an angle to prevent insects from nesting without additional screening.

	Vented 18'	Solid 18'

Cortex® Fastening System

Cortex® is the only concealed fastening system that quickly, easily, and securely fastens AZEK Trim to your building project. No need to caulk, sand, and paint nail holes. Cortex comes with plugs made of AZEK® material (Classic White, PaintPro®, or matching any Cladding color) arranged on collated strips for a faster installation. Available in paintable smooth or woodgrain finish.

Product Finish Availability Smooth S Woodgrain W PaintPro P

SECTION HEADER

Exterior Moulding

With crisp, architectural details just like premium wood mouldings, high-performance AZEK® Moulding will last beautifully without the maintenance hassles associated with wood. Backed by the AZEK promise of high quality and lasting performance, our moulding will maintain its appearance despite the tests of time and weather. AZEK cellular PVC offers greater stability and predictability when fastening, and unlike traditional wood moulding, resists moisture and insect damage and will not rot or split.

BED MOULDING
Similar to crown moulding, a bed mould is used to cover the joint between the ceiling and wall.

RAMS CROWN
Consider installing rams crown at the top of a column or post, or use in place of a crown for a distinctive look.

CROWN MOULDING
Crown moulding is used for a classic look, bridging the corner between the wall and ceiling.

BAND MOULDING
Band moulding can be used alone or added to the base of a crown for a premium finish.

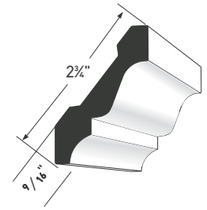

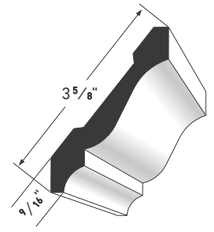

Crown Profiles

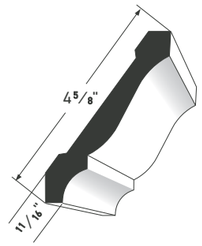

Crown moulding profiles are decorative mouldings designed for use along the intersection of a wall or ceiling. They may be combined with other mouldings to create a built-up profile.

Essential adhesives & fasteners

Description	SKU
 **Cortex Hidden Fastening System** Cortex® is the only concealed fastening system that quickly, easily, and securely fastens AZEK® Trim to your building project. No need to caulk, sand, and paint nail holes. Cortex comes with plugs made of AZEK material on collated strips to make fastening faster. • Classic AZEK Trim and PaintPro Trim • Paintable smooth or woodgrain finish	220 ml: AAD220MLQM
 **Cellular PVC Cement** Clear, contact-style adhesive bonds with PVC in a fast-working time. Ideal for securing joints. Creates a powerful and reliable material bond with no sanding or scraping required. • 24-hour curing time • Clamp 24–48 hours for best results • Water-soluble for easy cleanup when surfaces are still wet • Convenient applicator built into lid • Use AZEK Adhesive to connect trim when a tight compression is required, such as connecting trim end-to-end (scarf joints) and at corners (miter joints)	**Squeeze Bottle** 4 oz: AADB004OZ 8 oz: AADB008OZ **Container with Applicator** 4 oz: AAD004OZ 8 oz: AAD008OZ 16 oz: AAD016OZ 32 oz: AAD032OZ 128 oz: AAD128OZ 640 oz: AAD640OZ
 **Fast Cure** • White, two-part acrylic-based adhesive ideal for bonding AZEK to AZEK products; also bonds PVC to wood, metal, brick, vinyl, glass, and other PVC • Work time **4–7 minutes** at 70°F after mixing with Qwik-Mixer; fully cures in 24 hours • Fills nail holes and gaps up to 1/8" • Requires Qwik-Mixer for easy mixing and dispensing	220 ml: AAD220MLFCS 50 ml: AAD50MLFCS
 **Slow Cure** • White, two-part acrylic-based adhesive ideal for bonding AZEK to AZEK products; also bonds PVC to wood, metal, brick, vinyl, glass, and other PVC • Work time **15–25 minutes** at 70°F after mixing with Qwik-Mixer; fully cures in 24 hours • Fill nail holes and gaps up to 1/2" • Requires Qwik-Mixer for easy mixing and dispensing	220 ml: AAD220MLSCS 50 ml: AAD50MLSCS
 **Fill & Flex** Use for expansion and contraction joints on PVC trim boards. Seals gaps around windows and doors. Slow curing, one-part urethane-based sealant with high level of flexibility and elongation to absorb expansion and contraction from heat or cold. • Premium-grade TiO^2 pigments • Resists long-term yellowing • Allows ample work time	300 ml: AAD300MLFF

Description	SKU
 **Manual 50 ML Dispense Gun** Made of highly engineered plastic to be lightweight and powerful. Easy loading breech provides secure cartridge fit.	AAD50MLMG
 **Manual 220 ML Dispense Gun** Its 26:1 mechanical advantage dispenses high- and low-viscosity adhesives with less user fatigue. Designed to maximize durability.	AAD220MLHF
 **Qwik-Mixers** Required dispenser for Fast Cure and Slow Cure AZEK adhesive products. The resin and catalyst blend together as they travel down the tube to the applicator tip. Ensures 1:1 ratio mix and provides easy adhesive application. 24 per pack.	50 ml: AAD50MLSQM 220 ml: AAD220MLQM
 **PVC Trim Nail Erasers** Fills finish nail holes in PVC trim. White color perfectly matches AZEK trim. Resists yellowing.	.5 oz: AADNEBLIS
 **Plastic Joining Biscuit** PVC-compatible biscuits. Easy way to join, seal, and finish PVC Trim.	Pack of 50: AADPJB

Industry-Leading Warranties

With decades in the business and dedicated investments to research and development, AZEK makes it our mission to provide the best materials on the market. We stand behind the integrity of our siding, cladding, trim, and moulding with a Lifetime Limited Warranty that covers corrosion, rotting, splintering, delamination, or swelling excessively from moisture. All AZEK products are also easy to maintain and resistant to mold, mildew, and moisture damage. For more information, visit AZEKExteriors.com/warranty.

Contractor and Builder Information

AZEK Trim, Siding, and Moulding and TimberTech® Cladding should be installed using the same good building principles used to install wood trim and mouldings and in accordance with the local building codes and established installation guidelines. AZEK accepts no liability or responsibility for the improper installation of AZEK products.

AZEK Siding, Trim, and Moulding may not be suitable for every application, and it is the sole responsibility of the installer to be sure that AZEK Siding, Trim, and Moulding, and TimberTech Cladding are fit for the intended use. Since all installations are unique, it is also the installer's responsibility to determine specific requirements in regard to each application. AZEK recommends that all applications be reviewed by a licensed architect, engineer, or local building official before installation.

Technical information and AZEK Trim, Siding, and Moulding installation guides are available at **AZEKexteriors.com/resources** or from a local AZEK dealer. For further assistance, please call AZEK Customer Service at **1.800.910.3545** or visit our website at **AZEKexteriors.com**.
